**NATIONAL ENVIRONMENTAL MANAGEMENT AUTHORITY**  
Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi, Kenya  
Tel (254 020) 6005522, 6001945, Fax: (254 020) 6008997, Email: [dgnema@nema.go.ke](mailto:dgnema@nema.go.ke) Website: [www.nema.go.ke](http://www.nema.go.ke)

**NOTICE TO THE PUBLIC TO SUBMIT COMMENTS ON AN ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED LAMU-GARISSA ROAD.**

Pursuant to regulation 21 of the Environmental Management and Coordination (Impact Assessment and Audit) Regulations, 2003, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (**Kenya National Highways Authority**) is proposing to construct the Lamu - Garissa road. The project road falls under the Lamu and Garissa Counties and is a section of LAPSSETT corridor, having a total length of about 250Kilometres. The road starts at Mokowe (GPS: 2o14'S40o50'E) and traverses on the eastern side, of River Tana following, in some of its sections, the existing D568 Road through the trading centres of Hindi, Bargoni, Bodhei, Jara, Roka, Bura East, Nanighi and Korakora before terminating at junction (A3/C81), 13kms from Garissa town called as Modika (GPS 0o25'S, 33o40'E). The project road will be a gateway to the LAPSSETT corridor which will provide connectivity to other parts of Kenya through railway and highway.

IMPACT	MITIGATION MEASURES
<b>Air Quality</b>	<ul style="list-style-type: none"> <li>Ensure deviations and dry materials are kept damp at all times.</li> <li>Material delivery trucks to comply with established emission standards.</li> <li>Prohibit idling of vehicles.</li> <li>To avoid toxic fumes, residences should be at least 500m from windward side of asphalt mixing sites.</li> <li>Water should be sprayed during the construction phase on excavated areas, deviations routes, and temporary access roads leading to borrow pits and asphalt mixing sites.</li> <li>In filling sub-grade water spraying is needed to moisten the material and to assist in compaction. After compaction, water spraying should be regular to prevent dust.</li> <li>Regular maintenance of plant and equipment.</li> <li>Sensitize motorists/road users.</li> </ul>
<b>Changes in hydrology/ Drainage; and Use of water resources</b>	<ul style="list-style-type: none"> <li>Install proper and efficient drainage structures.</li> <li>Consult local residents in siting of boreholes.</li> <li>Proper and management of water usage</li> <li>Plan for harvesting and storage of water during rains by construction of water pans for use later.</li> <li>Abstraction from rivers and streams are not to be done during low flow.</li> <li>Groundwater abstraction be on permits conditions (locations to be identified)</li> <li>Ensure the public at target water sources gets priority.</li> </ul>
<b>Soil erosion</b>	<ul style="list-style-type: none"> <li>Install soil erosion control measures.</li> <li>Landscape embankments and re-vegetate gravel sites.</li> <li>Proper management of excavation activities.</li> </ul>
<b>Material Sites</b>	<ul style="list-style-type: none"> <li>Inform people living at/ near the sites that the pits have been selected for exploitation</li> <li>Plan, control and restrict access to gravel sites (e.g. by fencing)</li> </ul>
<b>Garbage or Solid Wastes</b>	<ul style="list-style-type: none"> <li>Sufficient measures will be taken in the construction camps i.e. provision of garbage bins and sanitation facilities. If septic tanks are installed, waste will be cleared periodically.</li> <li>The contractor to develop waste management plans and provide appropriate facilities for their operations.</li> <li>Prepare signed agreements with landowners where spoil earth is to be disposed indicating conditions and responsibilities for restoration and management.</li> <li>The spoil disposal sites should be approved by NEMA before dumping commence.</li> <li>Consider re-use of used/waste asphalt concrete for public access roads in the neighbouring urban areas.</li> </ul>
<b>Health (Public health and occupational safety) and safety HIV/AIDS</b>	<ul style="list-style-type: none"> <li>Special attention shall be paid to the sanitary conditions of camps</li> <li>Sensitization campaign on STDs &amp; HIV/AIDS will be mandatory at the camps and in the community.</li> <li>Preventive measures like use of condoms, voluntary testing for HIV/AIDS.</li> <li>Provide safety programmes for material sites and working areas including emergency response mechanisms.</li> <li>Awareness, prevention and training on HIV/AIDS and other social diseases such as TB.</li> <li>Adoption of pre-identified health centres within the road corridor.</li> <li>Provide group medical insurance and Personal Protective Equipment (PPE's) for the construction workers.</li> <li>Provide police security to the contractor.</li> </ul>
<b>Road Safety</b>	<ul style="list-style-type: none"> <li>Install warning signs and speed bumps on approach to towns and settlements</li> <li>Appropriate information and warning signs shall be provided along all the deviation roads for enhanced safety.</li> <li>Enforce vehicular speed limits</li> <li>Monitor road accidents</li> <li>Enforcement of Traffic Act.</li> </ul>
<b>Socio-economic/ Resettlement Action Plan</b>	<ul style="list-style-type: none"> <li>Enhance collaboration with communities on construction activities</li> <li>Provide deviations and accesses to affected premises during construction throughout the corridor.</li> <li>The contractor to establish and manage environmental and social initiatives to oversee mitigation measures developed under this report.</li> <li>Provide safe crossings and walkways during the construction throughout the corridor.</li> <li>Provision for community improvement services under social responsibility including health, education, water supply, sanitation, access roads etc.</li> <li>The contractor to prepare and consult on an employment plan and implement in accordance to Kenyan labour law.</li> <li>At least 60% of employment (casuals) to involve the local population, especially the youth and women.</li> <li>Follow-up on the implementation of RAP.</li> </ul>
<b>Water Pollution</b>	<ul style="list-style-type: none"> <li>Solid waste at construction camps, and equipment maintenance workshops should not be dumped in or near any water bodies (rivers, streams etc.) along the project road or area of influence.</li> </ul>
<b>Oil pollution</b>	<ul style="list-style-type: none"> <li>Proper handling, storage and disposal of oil and oil wastes.</li> <li>Maintenance and repair of construction vehicles/plants should be carried out at dedicated areas at the contractor's camp.</li> </ul>
<b>Wildfires</b>	<ul style="list-style-type: none"> <li>Install warning signs along the road not light fires near bushes as this could result in wild fires.</li> </ul>

The full report of the proposed project is available for inspection during work hours at:

- Principal Secretary, Ministry of Environment, Water and Natural Resources, NHIF Building, 12<sup>th</sup> Floor, Ragati Road, Upper Hill P.O. BOX 30126-00100, **NAIROBI**
